

Thank You, Seguin

For Partnering to
Do the Work in Seguin

*The world needs more **doers**. That's why Caterpillar is honored to be in the Seguin community for over 10 years. This is a community of doers, making the world around us a better place.*

The Caterpillar Seguin facility began production in 2010 – 10 years ago! In that time, our community of Seguin and our neighbors have had significant growth and success, even amidst challenging times. From significant population growth, residential construction activity, to coming together and supporting each other during a global pandemic...in Seguin, “It’s Real!”

Over the past decade, YOU have helped us build more than 500,000 engines and 8,000 generator sets. Our Seguin Cat® and Perkins® products are shipped across the globe, with over 70 percent exported. Our products are used by our customers to build a better world by powering hospitals, building roads and more.

The basis of a community is the people that build it up. Caterpillar has been honored to partner with the United Way and many other organizations locally to help take care of our neighbors and friends during their times of difficulty. Since 2010, Caterpillar and the Caterpillar Foundation have invested more than \$2 million to support welfare, education, workforce development, family and child services, and more in the Seguin and surrounding areas.

Seguin has shown that it appreciates modern manufacturing as a technical industry essential to keep our country and the world running. Manufacturing technicians are expert builders focused on quality, consistency, and continuous improvement. This has led to significant manufacturing job growth in Seguin, and our community being recognized as a leader in manufacturing excellence.

While many of our Seguin employees come from surrounding areas, most of our employees call Seguin home. **Like them, Caterpillar is proud to call Seguin home.** It is said that here in Seguin, we make the things that make America go, grow, build, and take on the world. Caterpillar is proud to help contribute to the work done by countless community members to help build a better world, right here in our own backyard, with impact across the globe.

Many thanks for helping us continue building the world, from right here in Seguin, Texas.

Mark Stratton
General Manager, Large Engines
Caterpillar Inc.
